To enhance enrollment for CKD, connect with your nephrologists to recruit patients on dialysis and/or on a renal transplant list  
**Canada has randomized 14 CKD pts!**

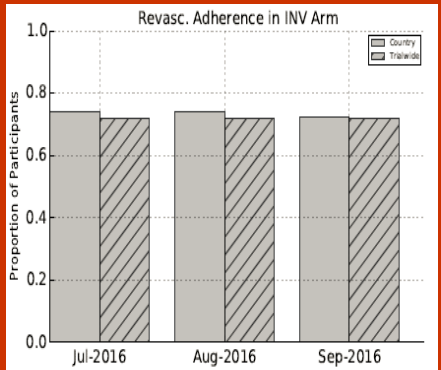

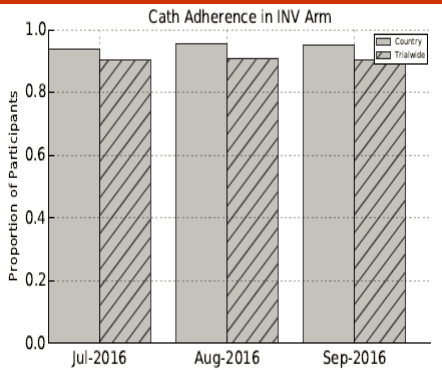

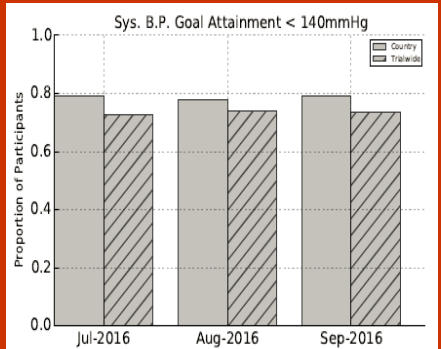

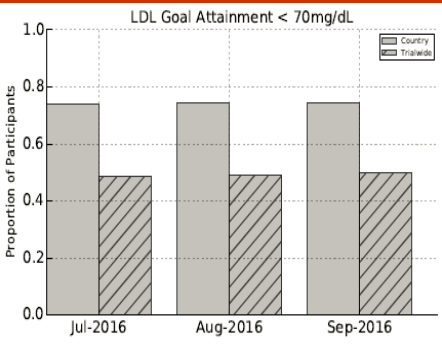

Consider any patient with stress echo-determined moderate-to-severe ischemia who doesn't have significant obstructive disease on CT angiography for CIAO  
**Canada has randomized 1 CIAO pt!**

- Strategies to Improve Enrollment**
- Send letters to referring physicians
  - Grand Rounds (Cardiology and/or Medical); Dr. Shaun Goodman is happy to present/assist
  - Local conferences and educational meetings, led by PI, sub-I, or a junior colleague
  - Utilize publication materials (e.g., posters, letters to referring MDs)

**Drug Donation:** A reminder that Canadian patients participating in the ISCHEMIA trial have access to free rosuvastatin (Crestor™), ticagrelor (Brilinta™), and nitrolingual spray

**ISCHEMIA WORLD CUP**
