

CHINA RANDOMIZED IT'S 100th PARTICIPANT!

December 2016 marks one year left for recruitment!

To date China has contributed 3% of randomizations worldwide- the target is 6% of total randomizations.

HELP CHINA MEET IT'S TARGET BY DECEMBER 2017

IT'S NOW OR NEVER!

STUDY UPDATES

Enrolled: 6131 | China: 236
Randomized: 3602 | China: 101

Ancillary Studies CKD

Enrolled: 406 | China: 4
Randomized: 389 | China: 4

Percentage of Randomizations by Country

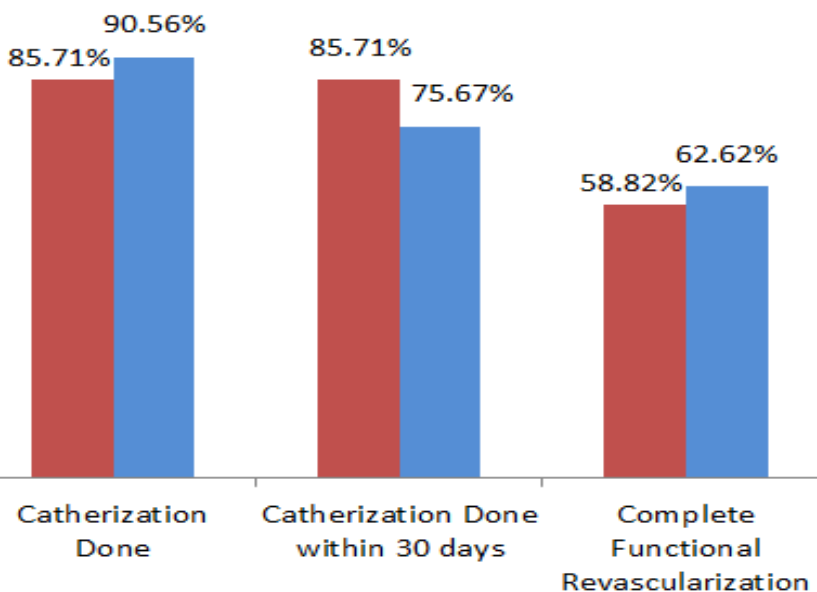

Thank you to China's Top Randomizing Sites

- ★ Guangdong General Hospital—Dr. Jiyen Chen—45 randomizations, randomization rate 1.08
- ★ Fuwai Hospital—Dr. Yongjian Wu—13 randomizations, randomization rate 0.31
- ★ Beijing Chao-yang Hospital, Capital Medical University— Dr. Xinchun Yang—9 randomizations, randomization rate 0.30
- ★ TEDA International Cardiovascular Hospital—Dr. Wenhua Lin—7 randomizations, randomization rate 0.17

China's Performance Optimal Revascularization Therapy (ORT) Compliance

■ China ■ Main Trial

Congratulations & Welcome to Our New Enrolling Sites!

We are hopeful that you will make a significant contribution to trial!

- Wuhan Union Hospital, Tongji Medical College, Huazhong Science and Tech University
Dr. Qiu Zeng
- Tangshan Gongren Hospital
Dr. Zheng Ji
- Shanxi Provincial People's Hospital
Dr. Gong Cheng
- Shenyang Sujiatun District Central Hospital
Dr. Hang Che
- The Second Affiliated Hospital Of Zhengzhou University
Dr. Yulan Zhao
- Liangxiang Hospital, Beijing Fangshan District
Dr. Xuehua Fang

For Optimal Revascularization Compliance

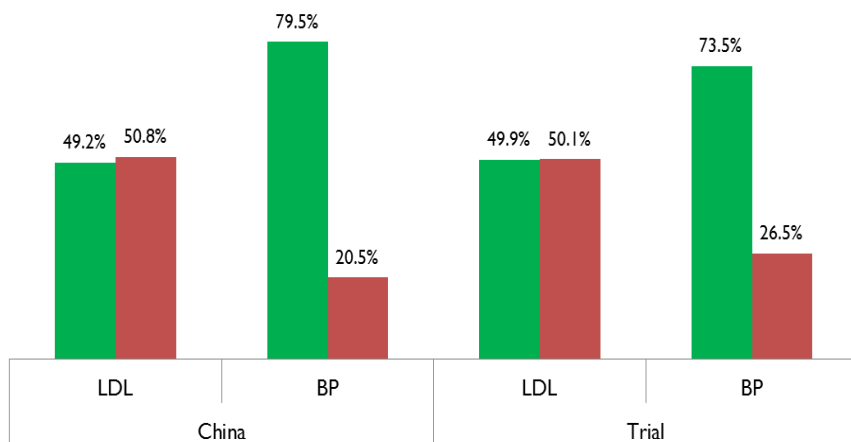

Remember to use drug eluting stents (preferably Xience and Endeavor Resolute). Bare metal stents should not be used unless there is a compelling reason.

Remember to obtain cardiac markers (both CK-MB and Troponin) both pre- and post- PCI/CABG

Remember to use FFR for patients with intermediate lesions or for those with seemingly non-obstructive disease

China's Performance Optimal Medical Therapy (OMT) Compliance

■ At Goal ■ Not At Goal

Remember

BP target: < 140/90

LDL target: < 70 mg/dL (1.8 mmol/L)

All participants should be on a

HIGH INTENSITY STATIN

-Atorvastatin 40-80 mg

-Rosuvastatin 20 mg

-if not meeting LDL target ADD ezetimibe
