POTENTIAL SUPPORT TO ATTEND AN UPCOMING NATIONAL CONGRESS MEETING

Your site may qualify for an opportunity under the new ISCHEMIA Educational Policy which will reimburse expenses for a study team member to attend an upcoming National Scientific Meeting. You may be selected based on (1) a large quantity of your data is entered accurately, completely & in a timely fashion; (2) your site randomization rate equals or exceeds that in the previous year; and (3) you maintain a high rate of patient retention. Reimbursement for registration, travel and accommodation (up to a pre-specified reasonable amount) will be offered to top-performing sites!

BIOREPOSITORY: Remember to approach & enroll all ISCHEMIA participants into the biorepository. If collection was missed at the randomization visit, you can always collect genetics at a later visit. If you need additional kits or have any questions, please contact ischemiabiorepository@nyumc.org.

CLINICAL EVENTS REMINDER:

Please remember to prioritize resolution of Clinical Endpoint Committee (CEC) queries. This will help us ensure that events are captured in a timely manner & shorten the time of event adjudication.
