

## The UK has randomized over 200 participants!

The UK's 200th participant was randomised at **Peterborough City Hospital** on the 15th of April. Congratulations to Dr Braganza and team, and all other UK sites who have contributed towards this commendable achievement. **Please keep up the great work!** If all active UK sites were to randomise one participant per month for the remainder of 2015, we could reach 300 patients by the end of the year!

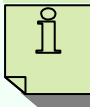

**FUN FACT!** April 2015 broke the UK record for the highest number of randomisations in a month (16)!

**Let's aim for another record breaking month in May and try to randomise 17!**

## CONGRATULATIONS!

- ★ To **Broomfield Hospital** for enrolling 5 & randomising 4 participants in April ★
  - ★ To King's College Hospital for randomising 2 participants in April ★
- ★ To **Royal Oldham Hospital** and **Nottingham University Hospitals** for randomising their 2nd participants in April ★
- ★ To **Russells Hall Hospital** for enrolling their 10th participant in April ★

### Did you know?

When enrolling a newly consented patient on Almac, a **creatinine result from  $\leq 90$  days** is required, so that an accurate eGFR is calculated. This can determine whether or not CTCA is performed prior to Randomisation.

If a consented patient has not had a creatinine test  $\leq 90$  days, it is necessary to obtain a blood sample prior to enrolment, so that this result can be entered when registering the participant on Almac.

For all other visits, it is preferable to obtain required blood results from the participant's GP if possible. If required blood results are not available for a participant, study staff will acquire them. Acceptable time windows for labs:

Randomization	within past six months
Three month visit	$\pm$ four weeks
Six month visit	$\pm$ eight weeks
All subsequent visits	$\pm$ eight weeks

Please see **Section 4.0 Follow-Up Schedule** of the MOO, for further details.

### Trial Update

As of 30th April 2015

Total Enrolled: 2,882  
UK Enrolled: 330

Total Randomised: 1,683  
UK Randomised: 210

Randomisations Pending: 182  
UK Pending : 8

### UK Ancillary Corner

CIAO-ISCHEMIA Enrollments: 6  
Contributing Sites:

**Northwick Park Hospital-Royal Brompton Hospital, London**  
**The University of Hull/Castle Hill Hospital**  
**King's College Hospital**

ISCHEMIA- CKD Randomizations: 3  
Contributing Sites:

**Northwick Park Hospital-Royal Brompton Hospital, London**  
**Broomfield Hospital NHS Trust**

### CIAO- SCHEMIA eCOS database now live!

Please enter all the enrolled participant information for CIAO participants as soon as possible. Email the CIAO team ([CIAO-ISCHEMIA@nyumc.org](mailto:CIAO-ISCHEMIA@nyumc.org)) for more information.

**CIAO! TIP: Fill out the baseline QOL at the time of the CTCA visit. This will allow you to use the forms for either the main trial or CIAO!**

During **April**, 6 sites enrolled **12** patients & 10 sites randomised **16** participants.
